5.ADVANTAGES & DISADVANTAGE

ADVANTAGES:

- Providing accurate information with minimal wait Times and reasonable fees.
- Avoiding queues and long wait times preventing mass booking and stream lining the scheduling process.
- Ensuring proper identity management.
- Maintaining security against cyber attacks.

DISADVANTAGES:

- There are many security issues with CRM such as data loss and data being hacked by someone.
- In CRM the collected data is stored at one centralized location .
- Visitors are not eligible for change of status or adjustment of status.

6.APPLICATIONS

1.CRM helps you make smarter decisions than your competition and offer people what they truly want.

2. CRM saves important data in extensive customer and contact lists.

3. A good CRM helps you maintain great customer relationships with all your clients and let them know what your services can do for them.

6.CONCLUSION

May be there some disadvantages or other ways to book a visa but in my opinion CRM application is a better way to book visa.

7.FUTURE SCOPE

Visa, a digital payment firm, has enjoyed spectacular growth since its first day of trading on the New York Stock Exchange (NYSE) The growing digital payment market, an incursion into the NFT sector, an increase in consumer spending better than expected results. Visa's acquisition strategy and other innovative initiatives make it a safe bet stock. As the NFT market is witnessing strong demand, Visa could earn a hefty amount from it in the future.
